Whereas the foregoing provisions of this Chapter heretofore are related to horizontal control only, the administrative agency may adopt standards for vertical control or levying surveys consistent with those recommended by and used by the United States National Geodetic Survey, and make or cause to be made such surveys as are necessary to complete the vertical control of North Carolina, in accordance with the provisions for horizontal control surveys as defined in this Chapter. The administrative agency shall have the authority to determine the official vertical datum used in this State.

## APPARATUS III

## Citation

## FULL SECTION

N.C. Gen. Stat. § 102-11 (2023).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

## COLOPHON

## Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
