It is the purpose of this Chapter to effectuate the policies set forth in G.S. 104E-3 by providing for:

A program of effective regulation of sources of radiation for the protection of the occupational and public health and safety;

A program to promote an orderly regulatory pattern within the State, among the states and between the federal government and the State and facilitate intergovernmental cooperation with respect to use and regulation of sources of radiation to the end that duplication of regulation may be minimized; and

A program to establish procedures for assumption and performance of certain regulatory responsibilities with respect to sources of radiation.

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
