

CHAPTER 106

ARTICLE 34 - ANIMAL DISEASES

N.C.G.S. § 106-390.

Blood sample testing; diseased animals to be branded and quarantined; sale; removal of identification, etc.

SOURCE	LAST AMENDMENT IN THIS TEXT	RETRIEVED	SOURCE FINGERPRINT
General Statutes of North Carolina, as published by the General Assembly	c. 465 — sixth act in the lineage	21 September 2026, 05:37 UTC	308712893fd1e11a3091d20d - a1df56c9a83a453185498857 - 8313ba1e9ac13aa6

All blood samples for the brucellosis test shall be drawn by persons whose qualifications are set by regulation of the Board of Agriculture. Animals from which blood is collected for a brucellosis test shall be identified by numbered ear tag, tattoo, or in some other manner approved by the Commissioner of Agriculture. It shall be the duty of the person who collects the blood sample, or other designated authorized person, to brand all cattle affected with brucellosis with the letter "B" on the left hip or jaw, not less than three or more than four inches high, tag such animals with an approved brucellosis reactor ear tag, and report the same to the State Veterinarian. It shall be the duty of the person owning said cattle at the time of said testing to assist with and cooperate with the person testing said cattle. Cattle affected with brucellosis shall be quarantined and slaughtered at a State or federally inspected slaughter plant within 10 days after branding and tagging; provided the State Veterinarian, in his discretion, may grant an extension of time for said slaughter not to exceed 30 days; and provided further that the Commissioner of Agriculture may allow a branded and tagged animal having unusual breeding value to be held for a period of time determined by him under conditions of isolation and quarantine prescribed by the State Veterinarian. Animals believed by the State Veterinarian or his authorized representative to have been exposed to brucellosis, or animals classified as suspects, shall be quarantined on the owner's premises or at such other place as is mutually agreeable to the owner and the State Veterinarian until the quarantine is removed in accordance with law or until the animal is disposed of in accordance with law. No animal affected with, or exposed to, brucellosis shall be sold, traded or otherwise disposed of except for immediate slaughter, and it shall be the duty of the person disposing of such infected animals to see that they are promptly slaughtered and a written report of same made to the State Veterinarian.

All cattle, swine, sheep, goats or other animals subject to infection by Brucella organisms, sold, or offered at public sale, except for immediate slaughter, shall be subject to test requirements established by the Board of Agriculture.

No ear tag, back tag, or other mark of identification approved by the Commissioner of Agriculture for identifying animals for the purpose of brucellosis testing, including testing at slaughter plants, shall be removed from the animal without authorization from the State Veterinarian or his authorized representative.

FULL SECTION

N.C. Gen. Stat. § 106-390 (1969).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
