Antifreeze shall be deemed to be misbranded:

If it does not bear a label which (i) specifies the identity of the product, (ii) states the name and place of business of the registrant, (iii) states the correct net quantity of contents (in terms of liquid measure) separately and accurately in a uniform location upon the principal display panel, and (iv) contains a statement warning of any hazard of substantial injury to human beings which may result from the intended use or reasonably foreseeable misuse of the antifreeze, as provided by applicable federal and State product safety laws.

If the label on a container of less than five gallons, or the labeling for a container of five gallons or more, does not contain a statement or chart showing the appropriate amount, percentage, proportion or concentration of the antifreeze to be used to provide (i) claimed protection from freezing at a specified degree or degrees of temperature, (ii) claimed protection from corrosion, or (iii) claimed increase of boiling point or protection from overheating.

If its labeling contains any claim that it has been approved or recommended by the Commissioner or the State of North Carolina.

If its labeling is false, deceptive, or misleading.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
