This Article shall be known by the title of "Structural Pest Control Act of North Carolina of 1955." It is declared to be the policy of this State that the regulation of persons, corporations and firms engaged in the business of structural pest control in this State, as defined in G.S. 106-65.25, is in the public interest in order to ensure a high quality of workmanship and in order to prevent deception, fraud and unfair trade practices in the conduct of said business. The General Assembly finds that quality of structural pest control work is not easily determined by the general public due to the inaccessibility of the areas treated and the complexity of the methods of treatment.

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
