- § 113-300.2(a)

When there is a factual basis for the declaration, any wild animal or bird may be declared a pest by:

(1)

The Commissioner of Agriculture under the Structural Pest Control Act of North Carolina of 1955, as amended, in Article 4C of Chapter 106 of the General Statutes, in accordance with any regulations or restrictions imposed by the Structural Pest Control Committee; or

(2)

The Pesticide Board under the North Carolina Pesticide Law of 1971, as amended, in Article 52 of Chapter 143 of the General Statutes.
- § 113-300.2(b)

When a wild animal or bird is declared a pest, the Commissioner of Agriculture or the Pesticide Board, as the case may be, must notify the Wildlife Resources Commission in writing of the action taken; the areas in which the declaration is effective; the type, amount, and mode of application of any poison or pesticide proposed for use against the pest; and other information pertinent to the declaration.
- § 113-300.2(c)

Upon receiving notification under subsection (b), the Wildlife Resources Commission may:

- (1) Hold a timely public hearing on the question whether it should concur in the declaration that the wild animal or bird is a pest and should be open to taking with the type or types of poison or pesticide specified or authorized in the notice, in the areas and under the circumstances specified. After holding the public hearing the Wildlife Resources Commission must decide, within 60 days after receiving the notice under subsection (b), whether it concurs or refuses to concur in the declaration that the wild animal or bird is a pest.
- (2) Take no action. In this event, 60 days after the Wildlife Resources Commission receives notice of the declaration under subsection (b), the concurrence of the Wildlife Resources Commission will occur automatically.

§ 113-300.2(d) Upon the concurrence of the Wildlife Resources Commission in the declaration under subsection (b), the wild animal or bird may be taken with the use of any poison or pesticide specified in the notice in accordance with applicable restrictions in statutes and regulations and in accordance with any special restrictions imposed by the Commissioner of Agriculture, the Structural Pest Control Committee, or the Pesticide Board. If the Wildlife Resources Commission refuses to concur, no poison or pesticide may be used to take the wild animal or bird.

§ 113-300.2(e) After holding a public hearing on the subject, the Wildlife Resources Commission may rescind its concurrence to a declaration under subsection (b) or grant its concurrence previously withheld.

§ 113-300.2(f) With the approval of the Structural Pest Control Committee or the Pesticide Board, as the case may be, the Wildlife Resources Commission may grant a qualified concurrence to a declaration, imposing further restrictions as to the use of poison or pesticide in taking the wild animal or bird in question.

§ 113-300.2(g) Notwithstanding any other provision of law, it is lawful to use any pesticide registered by the Pesticide Board to control any species of mole other than the Star-Nosed Mole (*Condylura cristata parva*), provided that (i) all rules regulating the application of pesticides adopted by the Pesticide Board are followed and (ii) pesticides used to control these species are applied in a manner that minimizes hazards to nontarget species.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
