§ 115C-242.1(a) Definition. - An "automated school bus safety camera" is a device that is affixed to a school bus, as that term is used in G.S. 20-217, that is synchronized to automatically record photographs or video of a vehicle at the time the vehicle is detected for a violation of (i) G.S. 20-217 or (ii) an ordinance adopted under G.S. 153A-246.

§ 115C-242.1(b) Installation and Operation. - Automated school bus safety cameras may be installed and operated on any school bus operated by a local board of education within a county that has adopted an ordinance under G.S. 153A-246 as follows:

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
