As used in this Article:

"Lubricating oil" means any oil classified for the use in an internal combustion engine, hydraulic system, gear box, differential, or wheel bearings.

"Recycled oil" means any oil prepared from used oil for energy recovery or reuse as a petroleum product by reclaiming, reprocessing, rerefining, or other means that use properly treated used oil as a substitute for petroleum products.

"Rerefined oil" means used oil that is refined to remove the physical and chemical contaminants acquired through use and that, by itself or when blended with new lubricating oil or additives, meets applicable American Petroleum Institute (A.P.I.) service classifications.

"Specifications" means the minimum chemical properties or analysis as determined by the American Society for Testing Materials (A.S.T.M.) test methods using current ASTM analytical procedures.

"Used oil" means any oil that has been refined from crude or synthetic oil and, as a result of use, storage, or handling becomes unsuitable for its original purpose due to the loss of its original properties or the presence of impurities, but that may be rerefined for further use.

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
