There is established the Joint Legislative Oversight Committee on Information Technology. The Committee shall review current information technology that impacts public policy, including electronic data processing and telecommunications, software technology, and information processing. The goals and objectives of the Committee shall be to develop electronic commerce in the State and to coordinate the use of information technology by State agencies in a manner that assures that the citizens of the State receive quality services from all State agencies and that the needs of the citizens are met in an efficient and effective manner. The Committee shall examine, on a continuing basis, systemwide issues affecting State government information technology, including, but not limited to, State information technology operations, infrastructure, development, financing, administration, and service delivery. The Committee may examine State agency or enterprise-specific information technology issues. The Committee shall make ongoing recommendations to the General Assembly on ways to improve the effectiveness, efficiency, and quality of State government information technology. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
