- § 122C-211(a)

Except as provided in subsections (b) through (f) of this section, any individual, including a parent in a family unit, in need of treatment for mental illness or substance abuse may seek voluntary admission at any facility by presenting himself or herself for evaluation to the facility. No physician's statement is necessary, but a written application for evaluation or admission, signed by the individual seeking admission, or the individual's legally responsible person, is required. The application form shall be available at all times at all facilities. However, no one shall be denied admission because application forms are not available. An evaluation shall determine whether the individual is in need of care, treatment, habilitation or rehabilitation for mental illness or substance abuse or further evaluation by the facility. Information provided by family members regarding the individual's need for treatment shall be reviewed in the evaluation. If applicable, information provided in an advance instruction for mental health treatment by the client or the client's legally responsible person shall be reviewed in the evaluation. An individual may not be accepted as a client if the facility determines that the individual does not need or cannot benefit from the care, treatment, habilitation, or rehabilitation available and that the individual is not in need of further evaluation by the facility. The facility shall give to an individual who is denied admission a referral to another facility or facilities that may be able to provide the treatment needed by the client.
- § 122C-211(b)

In 24-hour facilities the application shall acknowledge that the applicant may be held by the facility for a period of 72 hours after any written request for release that the applicant may make, and shall acknowledge that the 24-hour facility may have the legal right to petition for involuntary commitment of the applicant during that period.

At the time of application, the facility shall tell the applicant about procedures for discharge.

- § 122C-211(c)** Any individual who voluntarily seeks admission to a 24-hour facility in which medical care is an integral component of the treatment shall be examined and evaluated by a physician of the facility within 24 hours of admission. The evaluation shall determine whether the individual is in need of treatment for mental illness or substance abuse or further evaluation by the facility. If the evaluating physician determines that the individual will not benefit from the treatment available, the individual shall not be accepted as a client.
- § 122C-211(d)** Any individual who voluntarily seeks admission to any 24-hour facility, other than one in which medical care is an integral component of the treatment, shall have a medical examination within 30 days before or after admission if it is reasonably expected that the individual will receive treatment for more than 30 days or shall produce a current, valid physical examination report, signed by a physician, completed within 12 months prior to the current admission. When applicable, this examination may be included in an examination conducted to meet the requirements of G.S. 122C-223 or G.S. 122C-232.
- § 122C-211(e)** Repealed by Session Laws 2018-33, s. 12, effective October 1, 2019, and applicable to proceedings initiated on or after that date.
- § 122C-211(f)** A family unit may voluntarily seek admission to a 24-hour substance abuse facility that is able to provide, directly or by contract, treatment, habilitation, or rehabilitation services that will specifically address the family unit's needs. These services shall include gender-specific substance abuse treatment, habilitation, or rehabilitation for the parent as well as assessment, well-child care, and, as needed, early intervention services for the child. A family unit that voluntarily seeks admission to a 24-hour substance abuse facility shall be evaluated by the facility to determine whether the family unit would benefit from the services of the facility. A facility shall not accept a family unit as a client if the facility determines that the family unit does not need or cannot benefit from the care, habilitation, or rehabilitation available at the facility. The facility shall give to a family unit that is denied admission a referral to another facility or facilities that may be able to provide treatment needed by the family unit. Except as otherwise provided, this section applies to a parent in a family unit seeking admission under this section.

§ 122C-211(f1) Repealed by Session Laws 2018-33, s. 12, effective October 1, 2019, and applicable to proceedings initiated on or after that date.

§ 122C-211(g) As used in this Part, the term "family unit" means a parent and the parent's dependent children under the age of three years.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
