- § 126-14.3A(a)

The Office of State Human Resources (OSHR) shall streamline the job application process for State positions by enabling applicants to upload resumes or website profiles. An electronic tool shall be utilized to import information from these documents into the State job application format, making the process more efficient while still collecting information necessary for merit-based hiring under G.S. 126-14.2 and G.S. 126-14.3. An applicant remains responsible for ensuring that all information required for initial screening appears correctly in the completed State job application after importing the applicant's resume or profile.
- § 126-14.3A(b)

For job applications requiring references, supplemental questions, or other information not typically found on resumes and not needed for initial screening, State agencies may collect this information later in the selection process, including during job interviews.
- § 126-14.3A(c)

Beginning in 2026 and then annually thereafter, the OSHR shall present the State application form and demonstrate the import process to the State Human Resources Commission to receive the Commission's informal feedback. (2025-34, s. 2(a).)

PINPOINT

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
