§ 130A-141.1(a) The State Health Director may issue a temporary order requiring health care providers to report symptoms, diseases, conditions, trends in use of health care services, or other health-related information when necessary to conduct a public health investigation or surveillance of an illness, condition, or symptoms that may indicate the existence of a communicable disease or condition that presents a danger to the public health. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
