A local health director in whose county or district rabies is found in the wild animal population as evidenced by a positive diagnosis of rabies in the past year in any wild animal, except a bat, may petition the State Health Director to declare a rabies emergency in the county or district. In determining whether a rabies emergency exists, the State Health Director shall consult with the Public Health Veterinarian and the State Agriculture Veterinarian and may consult with any other source of veterinary expertise the State Health Director deems advisable. Upon finding that a rabies emergency exists in a county or district, the State Health Director shall petition the Executive Director of the Wildlife Resources Commission to develop a plan pursuant to G.S. 113-291.2(a1) to reduce the threat of rabies exposure to humans and domestic animals by foxes, raccoons, skunks, or bobcats in the county or district. Upon determination by the State Health Director that the rabies emergency no longer exists for a county or district, the State Health Director shall immediately notify the Executive Director of the Wildlife Resources Commission. ## FULL SECTION

N.C. Gen. Stat. § 130A-201 (2026).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

## COLOPHON

## Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
