§ 130A-295.03(a) For purposes of this section, the term "container" means any portable device into which waste is placed for storage, transportation, treatment, disposal, or other handling, and includes the first enclosure which encompasses the waste.

§ 130A-295.03(b) All hazardous waste shall be placed in containers for disposal, except as the Commission shall provide for by rule. The Commission shall adopt standards for the design and construction of containers for disposal. Standards for containers may vary for different types of waste. The standards for disposal containers may supplement or duplicate any of the performance or engineering standards for hazardous waste disposal facilities required under State or federal law; however, the performance or engineering standards for hazardous waste disposal facilities are separate and cumulative, and the performance or engineering standards for hazardous waste disposal facilities and containers may not substitute for or replace one another.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
