

CHAPTER 130A
ARTICLE 9 - SOLID WASTE MANAGEMENT

N.C.G.S. § 130A-301.3.

Disposal of demolition debris
generated from the decommissioning
of manufacturing buildings, including
electric generating stations, on-site.

SOURCE General Statutes of North Carolina, as published by the General Assembly	LAST AMENDMENT IN THIS TEXT No amendment history on record	RETRIEVED 21 September 2026, 03:01 UTC	SOURCE FINGERPRINT 2382689a099dc04861ddc9c6 - 2177e4f35ee3320139f403e9 - 4ad5483b7d388ebe
--	---	---	--

- § 130A-301.3(a) A person may dispose of demolition debris from the decommissioning of manufacturing buildings, including electric generating stations, on the same site as the decommissioned buildings if the demolition debris meets all of the following requirements:
- (1) It is composed only of inert debris such as brick or other masonry materials, dirt, sand, gravel, rock, and concrete if the material, when characterized using the toxicity characteristic leaching procedure developed by the United States Environmental Protection Agency, is not a hazardous waste. The debris may contain small amounts of wood, paint, sealants, and metal associated with the inert debris.
 - (2) It does not extend beyond the footprint of the decommissioned buildings and shall be at least 50 feet from the property boundary or enclosed by the walls of the building that are left in place below grade. Walls left in place below grade are not subject to the requirements of subdivision (4) of this subsection.
 - (3) It is placed at least 500 feet from the nearest drinking water well.

- (4) It is placed to assure at least two feet of clean soil between any coated inert debris and the seasonal high groundwater table. Uncoated inert debris may be used as fill anywhere within the footprint of the decommissioned building or as beneficial fill on the site.
- (5) It complies with all other applicable federal, State, and local laws, regulations, rules, and ordinances.

§ 130A-301.3(b)

After the decommissioning is completed or terminated, the owner or operator shall compact the demolition debris and cover it with at least two feet of compacted earth finer than a sandy texture soil. The cover of the demolition debris shall be graded so as to minimize water infiltration, promote proper drainage, and control erosion. Erosion of the cover shall be controlled by establishing suitable vegetative cover. All site stabilization should be completed within 90 days of the completed demolition.

§ 130A-301.3(c)

Within 30 days of completing the final site stabilization or at least 30 days before the land, or any interest in the land, on which the demolition debris is located is transferred, whichever is earlier, the owner or owners of record of the land on which the demolition debris is located shall file each of the following with the register of deeds of the county in which the demolition debris is located:

- (1) A survey plat of the property that meets the requirements of G.S. 47-30. The plat shall accurately show the location of the demolition debris in a manner that will allow the demolition debris disposal site to be accurately delineated and shall reference this section.
- (2) A notice that disposal of demolition debris has been located on the land. The notice shall include a description of the land that would be sufficient as a description in an instrument of conveyance. The notice shall list the owners of record of the land at the time the notice is filed and shall reference the book and page number where the deed or other instrument by which the owners of record acquired title is located. The notice shall reference the book and page number where the survey plat required by subdivision (1) of this subsection is recorded. The notice shall reference this section, shall describe with particularity the type and size of the building or other structure that was demolished, and shall state the dates on which the demolition began and ended. The notice shall be executed by the owner or owners of record as provided in Chapter 47 of the General Statutes. The register of deeds shall record the notice and index it in the grantor index under the names of all owners of record of the land.

- § 130A-301.3(d)

A certified copy of both the plat and notice required by subsection (c) of this section shall also be filed with the Department. The plat and the notice shall indicate on the face of the document the book and page number where recorded.
- § 130A-301.3(e)

When the land, or any portion of the land, on which the demolition debris is located is sold, leased, conveyed, or transferred, the deed or other instrument of transfer shall contain a statement that the property has been used for the disposal of demolition debris. The statement shall include a reference to this section and to the book and page number where the notice required by subdivision (2) of subsection (c) of this section is recorded. (2013-55, s. 2.)

N.C. Gen. Stat. § 130A-301.3 (2026).

PINPOINT

N.C. Gen. Stat. § 130A-301.3(a) (2026).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
