

CHAPTER 130A
ARTICLE 9 - SOLID WASTE MANAGEMENT

N.C.G.S. § 130A-309.05.

Regulated wastes; certain exclusions.

SOURCE General Statutes of North Carolina, as published by the General Assembly	LAST AMENDMENT IN THIS TEXT S.L. 2015-1, s. 2(b) — third act in the lineage	RETRIEVED 21 September 2026, 03:45 UTC	SOURCE FINGERPRINT e262b98c2bda840384c2a456 - 774d9a8e94d16d5b3d19eff7 - b5c11aec20dfab1f
--	--	---	--

§ 130A-309.05(a) Notwithstanding other provisions of this Article, the following waste shall be regulated pursuant to this Part:

- (1) Medical waste; and
- (2) Ash generated by a solid waste management facility from the burning of solid waste.

§ 130A-309.05(b) Ash generated by a solid waste management facility from the burning of solid waste shall be disposed of in a properly designed solid waste disposal area that complies with standards developed by the Department for the disposal of the ash. The Department shall work with solid waste management facilities that burn solid waste to identify and develop methods for recycling and reusing incinerator ash or treated ash.

§ 130A-309.05(c) Recovered material is not subject to regulation as solid waste under this Article. In order for a material that would otherwise be regulated as solid waste to qualify as a recovered material, the Department may require any person who owns or has control over the material to demonstrate that the material meets the requirements of this subsection. In order to protect public health and the environment, the Commission may adopt rules to implement this subsection. Materials that are accumulated speculatively, as that term is defined under 40 Code of Federal Regulations § 261 (July 1, 2014 Edition), shall not qualify as a recovered material, and shall be subject to regulation as solid waste. In order to qualify as a recovered material, the material shall be managed as a valuable commodity in a manner consistent with the desired use or end use, and all of the following conditions shall be met:

- (1) Seventy-five percent (75%), by weight or volume, of the recovered material stored at a facility at the beginning of a calendar year commencing January 1, shall be removed from the facility through sale, use, or reuse by December 31 of the same year.
- (2) The recovered material or the products or by-products of operations that process recovered material shall not be discharged, deposited, injected, dumped, spilled, leaked, or placed into or upon any land or water so that the products or by-products or any constituent thereof may enter other lands or be emitted into the air or discharged into any waters including groundwaters, or otherwise enter the environment or pose a threat to public health and safety. Facilities that process recovered material shall be operated in a manner to ensure compliance with this subdivision.
- (3) The recovered material shall not be a hazardous waste or have been recovered from a hazardous waste.
- (4) The recovered material shall not contain significant concentrations of foreign constituents that render it unserviceable or inadequate for sale, or its intended use or reuse.

FULL SECTION

N.C. Gen. Stat. § 130A-309.05 (2015).

PINPOINT

N.C. Gen. Stat. § 130A-309.05(a) (2015).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
