The Department may approve the use of a registered environmental consultant to provide oversight for the assessment and remediation of a site under this Part based on the risk posed by the site and the availability of Department staff for oversight of remediation activities. If remediation under this Part is not undertaken voluntarily, the Department may not require the use of a registered environmental consultant to provide oversight for the assessment and remediation of a site under this Part. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
