§ 130A-413(a) The General Assembly finds that there is an increasing need for human tissues for transplantation purposes; that there is a continuing need for human tissues for the purposes of medical education and research; and that these needs are not being sufficiently filled at the present because of a shortage of human tissue donors. The General Assembly establishes a coordinated human tissue donation program to facilitate the acquisition and distribution of human tissues to promote the public health. For the purposes of this Part, the term "human tissue" includes cadavers.

§ 130A-413(b) The Department shall establish and administer a coordinated program among departments and agencies of the State and all groups, both public and private, involved in the acquisition and distribution of human tissue to:

- (1) Increase awareness of the need for human tissue donations and of the methods by which these donations are made;
- (2) Increase awareness of the existing programs of human tissue transplantation and of medical research and education which employs human tissue and share information with the public;
- (3) Study the problems surrounding the acquisition and distribution of human tissue and make suggestions for their solution;

- (4) Disseminate information to health and other professionals concerning the techniques of human tissue retrieval and transplantation, the legalities involved in making anatomical gifts; and
- (5) Arrange for the quick and precise transportation of donated human tissue in emergency transplant situations.

§ 130A-413(c)

All departments and agencies of the State and county and municipal law-enforcement agencies shall cooperate with the coordinated human tissue donation program instituted by the Department.

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
