§ 130A-453.02(a) This Article is enacted to establish an authorized State program under section 404 of the Toxic Substances Control Act (15 U.S.C. § 2684), as enacted by Subtitle B, section 1021 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Pub. L. 102-550, 106 Stat. 3916), that will apply in this State in lieu of the corresponding federal program administered by the federal Environmental Protection Agency. This Article requires a person who performs an inspection, risk assessment, or abatement of a child-occupied facility or target housing to be certified and establishes the procedure and requirements for certification. It also requires a person who conducts an abatement of a child-occupied facility or target housing to obtain a permit for the abatement.

§ 130A-453.02(b) This Article does not require the inspection, risk assessment, or abatement of a child-occupied facility or target housing under any circumstance. G.S. 130A-131.5 and the rules adopted to implement that section authorize the Department to order an abatement to eliminate a lead poisoning hazard. This Article does not expand or otherwise change that authority. (1997-523, s. 1.)

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
