- § 131E-114.4(a)

An offer of employment by a nursing home licensed under this Part to an applicant is conditioned on the applicant's consent to an examination and screening for controlled substances. The examination and screening shall be conducted in accordance with Article 20 of Chapter 95 of the General Statutes. A screening procedure that utilizes a single-use test device may be used for the examination and screening of applicants and may be administered on-site. If the results of the applicant's examination and screening indicate the presence of a controlled substance, the nursing home shall not employ the applicant unless and until the applicant provides to the nursing home written verification from the applicant's prescribing physician that every controlled substance identified by the examination and screening is prescribed by that physician to treat the applicant's medical or psychological condition. The verification from the physician shall include the name of the controlled substance, the prescribed dosage and frequency, and the condition for which the substance is prescribed. If the result of an applicant's or employee's examination and screening indicates the presence of a controlled substance, the nursing home may require a second examination and screening to verify the results of the prior examination and screening.
- § 131E-114.4(b)

A nursing home may require random examination and screening for controlled substances as a condition of continued employment. If the nursing home has

reasonable grounds to believe that an employee is an abuser of a controlled substance, the nursing home may require that employee to undergo examination and screening for controlled substances as a condition of continued employment.

§ 131E-114.4(c) A nursing home and an officer or employee of a nursing home that, in good faith, comply with this section are not liable for the failure of the nursing home to employ or continue the employment of an individual on the basis of the results of an examination and screening of the applicant or employee for controlled substances.

§ 131E-114.4(d) An entity and officers and employees of an entity that perform controlled substance examination and screening in accordance with Article 20 of Chapter 95 of the General Statutes shall be immune from civil liability for conducting or failing to conduct the examination and screening if the examination and screening are requested and received in compliance with this section and with Article 20 of Chapter 95 of the General Statutes.

§ 131E-114.4(e) The results of an examination and screening conducted at the request of a nursing home in accordance with this section are confidential and not a public record under Chapter 132 of the General Statutes. The nursing home shall maintain the confidentiality of all information related to the examination and screening of an applicant for employment or an individual currently employed by the nursing home.

§ 131E-114.4(f) The nursing home shall pay expenses related to controlled substance examination and screening pursuant to this section, except examinee-requested retests. The examinee shall pay all reasonable expenses for retests of confirmed positive results. (2013-167, s. 2.)
