The monetary value for existing trees removed and eligible for reimbursement to the Department as provided in G.S. 136-93 or G.S. 136-133.1 from State rights-of-way shall be determined on an annual basis by the Department. In determining the value of existing trees removed, the average cost per caliper inch shall be based on the lower value of either the average wholesale commercial nursery prices for hardwood and conifer plants, times a 2.5 multiplier for installation and warranty or the average cost per caliper inch for tree planting contracts let by the Department in the previous calendar year. The values shall be determined and published by the Department no later than December 15 of each year. The values established pursuant to this section shall be used in calculating the monetary value of trees removed from State rights-of-way beginning January 1 of each year. If the Department fails to publish changes in values by December 15, then the values existing on December 15 shall be applicable to existing trees removed and eligible for reimbursement for the following year. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
