- § 143-215.109(a)

The Commission may by rule establish criteria for controlling the effects of complex sources on air quality. The rules shall set forth such basic minimum criteria or standards under which the Commission shall approve or disapprove any such construction or modification. The rules shall further provide for the submission of plans, specifications and such other information as may be necessary for the review and evaluation of proposed or modified complex sources.
- § 143-215.109(b)

If the Commission shall determine that the construction or modification of any complex sources will result in a violation of ambient air quality standards or interfere with the attainment of such standards in any area where an air pollution abatement control program has been established, the Commission shall have authority to disapprove such construction or modification or to approve such construction or modification under such conditions as the Commission shall deem necessary or appropriate.
- § 143-215.109(c)

Repealed by Session Laws 1987, c. 827, s. 207.

PINPOINT

N.C. Gen. Stat. § 143-215.109(a) (2013).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
