

CHAPTER 143

ARTICLE 21 - WATER AND AIR RESOURCES

N.C.G.S. § 143-215.10I.

Performance standards for animal waste management systems that serve swine farms; lagoon and sprayfield systems prohibited.

SOURCE	LAST AMENDMENT IN THIS TEXT	RETRIEVED	SOURCE FINGERPRINT
General Statutes of North Carolina, as published by the General Assembly	No amendment history on record	21 September 2026, 07:24 UTC	b209f82dc03f9cc3095a7cea - 5c58c32e388c3a74070cfceb - 6bae882ad28d1643

§ 143-215.10I(a)

As used in this section:

- (1) "Anaerobic lagoon" means a lagoon that treats waste by converting it into carbon dioxide, methane, ammonia, and other gaseous compounds; organic acids; and cell tissue through an anaerobic process.
- (2) "Anaerobic process" means a biological treatment process that occurs in the absence of dissolved oxygen.
- (3) "Lagoon" has the same meaning as in G.S. 106-802.
- (4) "Swine farm" has the same meaning as in G.S. 106-802.

§ 143-215.10I(b)

The Commission shall not issue or modify a permit to authorize the construction, operation, or expansion of an animal waste management system that serves a swine farm that employs an anaerobic lagoon as the primary method of treatment and land application of waste by means of a sprayfield as the primary method of waste disposal unless:

- (1) The permitting action does not result in an increase in the permitted capacity of the swine farm, as measured by the annual steady state live weight capacity of the swine farm; or

- (2) The Commission determines that the animal waste management system will meet or exceed all of the following performance standards:
- a.Elimate the discharge of animal waste to surface water and groundwater through direct discharge, seepage, or runoff.

b.Substantially eliminate atmospheric emission of ammonia.

c.Substantially eliminate the emission of odor that is detectable beyond the boundaries of the parcel or tract of land on which the swine farm is located.

d.Substantially eliminate the release of disease-transmitting vectors and airborne pathogens.

e.Substantially eliminate nutrient and heavy metal contamination of soil and groundwater. (2007-523, s. 1(a); 2020-18, s. 11.)

N.C. Gen. Stat. § 143-215.10I (2026).

PINPOINT
N.C. Gen. Stat. § 143-215.10I(a) (2026).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
