

CHAPTER 143  
ARTICLE 21 - WATER AND AIR RESOURCES

N.C.G.S. § 143-215.1A.

Closed-loop groundwater remediation systems allowed.

| SOURCE                                                                   | LAST AMENDMENT IN THIS TEXT    | RETRIEVED                    | SOURCE FINGERPRINT                                                     |

| General Statutes of North Carolina, as published by the General Assembly | No amendment history on record | 21 September 2026, 06:40 UTC | 0bd2818af5b86d6aa85367d7 - 76f37aca977f223f80a53196 - c924787a7c32bf32 |

- § 143-215.1A(a)

The phrase "closed-loop groundwater remediation system" means a system and attendant processes for cleaning up contaminated groundwater by pumping groundwater, treating the groundwater to reduce the concentration of or remove contaminants, and reintroducing the treated water beneath the surface so that the treated groundwater will be recaptured by the system.
- § 143-215.1A(b)

The Secretary may issue a permit for the siting, construction, and operation of a closed-loop groundwater remediation system. Permits shall be issued in accordance with G.S. 143-215.1 and applicable rules of the Commission. A permit issued under this section constitutes prior permission under G.S. 87-88.
- § 143-215.1A(c)

A permit for a closed-loop groundwater remediation system shall specify the location at which groundwater is to be reintroduced and shall specify design, construction, operation, and closure requirements for the closed-loop groundwater remediation system necessary to ensure that the treated groundwater will be captured by the contaminant and removal system that extracts the groundwater for treatment. The Secretary may impose any additional permit conditions or limitations necessary to:

(1) Achieve efficient, effective groundwater remediation.

(2) Minimize the possibility of spills or other releases from the closed-loop groundwater remediation system.

- (3) Specify or limit the distance between the point at which contaminated groundwater is extracted and the point at which treated groundwater is reintroduced.
- (4) Specify the minimum or maximum gradients between the point at which contaminated groundwater is extracted and the point at which treated groundwater is reintroduced.
- (5) Specify or limit the chemical, physical, or biological treatment processes that may be used.
- (6) Protect the environment or public health.

§ 143-215.1A(d)

The Commission may adopt rules to implement this section. (1991 (Reg. Sess., 1992), c. 786, s. 3.)

FULL SECTION

N.C. Gen. Stat. § 143-215.1A (2026).

PINPOINT

N.C. Gen. Stat. § 143-215.1A(a) (2026).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

## COLOPHON

## Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
