

CHAPTER 143

ARTICLE 21 - WATER AND AIR RESOURCES

N.C.G.S. § 143-215.25A.

Exempt dams.

SOURCE	LAST AMENDMENT IN THIS TEXT	RETRIEVED	SOURCE FINGERPRINT
General Statutes of North Carolina, as published by the General Assembly	S.L. 2021-180, s. 12.21 — sixth act in the lineage	21 September 2026, 07:24 UTC	59f42427eef313dc77b391e1 - 07f146decc41a419880c9af7 - 56dcdbd339414b82d

§ 143-215.25A(a) Except as otherwise provided in this Part, this Part does not apply to any dam:

- (1) Constructed by the United States Army Corps of Engineers, the Tennessee Valley Authority, or another agency of the United States government, when the agency designed or approved plans for the dam and supervised its construction.
- (2) Constructed with financial assistance from the United States Natural Resources Conservation Service, when that agency designed or approved plans for the dam and supervised its construction.
- (3) Licensed by the Federal Energy Regulatory Commission, or for which a license application is pending with the Federal Energy Regulatory Commission.
- (4) For use in connection with electric generating facilities regulated by the Nuclear Regulatory Commission.
- (5) Under a single private ownership that provides protection only to land or other property under the same ownership and that does not pose a threat to human life or property below the dam.
- (6) (See Editor's Note) That is less than 25 feet in height or that has an impoundment capacity of less than 50 acre-feet, unless the Department determines that failure of the dam could result in loss of human life or significant damage to property below the dam.

- (7) (See Editor's Note) Constructed for and maintains the purpose of providing water for agricultural use, when a person who is licensed as a professional engineer or is employed by the Natural Resources Conservation Service, county, or local Soil and Water Conservation District, and has federal engineering job approval authority under Chapter 89C of the General Statutes designed or approved plans for the dam, supervised its construction, and registered the dam with the Division of Energy, Mineral, and Land Resources of the Department prior to construction of the dam. This exemption shall not apply to dams that are determined to be high-hazard by the Department.
- (8) That is less than 20 feet in height or that has an impoundment capacity of less than 15 acre-feet, when a qualified engineer who demonstrates to the satisfaction of the Department experience in dam design conducts dam failure analyses based on both storm-induced failure and normal weather geologic, structural, or seismic failure scenarios and determines that the dam is not a high hazard dam.

§ 143-215.25A(b)

The exemption from this Part for a dam described in subdivisions (1) and (2) of subsection (a) of this section does not apply after the supervising federal agency relinquishes authority for the operation and maintenance of the dam to a local entity.

FULL SECTION

N.C. Gen. Stat. § 143-215.25A (2021).

PINPOINT

N.C. Gen. Stat. § 143-215.25A(a) (2021).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
