This section applies only to a facility that utilizes an underground storage tank system to store fuel solely for use by emergency power generators. A primary operator that has satisfactorily completed the training required by G.S. 143-215.94QQ at a facility shall be deemed trained as the primary operator at another facility that has identical spill prevention, overfill prevention, release detection, corrosion protection, emergency response, and product compatibility requirements as the facility for which the primary operator has satisfactorily completed training. (2010-154, s. 2.)

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
