The Environmental Management Commission shall develop and implement a permit program for municipal and domestic wastewater collection systems on a systemwide basis. The collection system permit program shall provide for performance standards, minimum design and construction requirements, a capital improvement plan, operation and maintenance requirements, and minimum reporting requirements. In order to ensure an orderly and cost-effective phase-in of the collection system permit program, the Commission shall implement the permit program over a five-year period beginning 1 July 2000. The Commission shall issue permits for approximately twenty percent (20%) of municipal and domestic wastewater collection systems that are in operation on 1 July 2000 during each of the five calendar years beginning 1 July 2000 and shall give priority to those collection systems serving the largest populations, those under a moratorium imposed by the Commission under G.S. 143-215.67, and those for which the Department of Environmental Quality has issued a notice of violation for the discharge of untreated wastewater. (2001-452, s. 2.6; 2015-241, s. 14.30(u); 2017-10, s. 4.3.)

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
