No later than December 1, 2014, each Regulatory Authority shall review and, where necessary, revise its procedures for review of Regulatory Submittals to accomplish the following:

Standardize the provision of review and comments on Regulatory Submittals so that revisions or requests for additional information that are required by the Regulatory Authority in order to proceed with the permit, license, or approval are clearly delineated from revisions or requests for additional information that constitute suggestions or recommendations by the Regulatory Authority. For purposes of this subdivision, "suggestions or recommendations by the Regulatory Authority" means comments made by the reviewer of the Regulatory Submittal to the Submitting Party that make a suggestion or recommendation for consideration by the Submitting Party but that are not required by the Regulatory Authority in order to proceed with the permit, license, or approval.

With respect to revisions or requests for additional information that are required by the Regulatory Authority in order to proceed with the permit, license, or approval, the Regulatory Authority shall identify the statutory or regulatory authority for the requirement. (2014-120, s. 29(b).)

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
