Submit an application during the next registration period to enroll in the federal 340B Program found in section 340B of the Public Health Service Act (the "340B Program") to be able to access 340B Program pricing for medications used to treat the human immune deficiency virus (HIV), the hepatitis C virus (HCV), and eligible sexually transmitted diseases (STD).

Ensure that the DAC Apex Central Pharmacy, and any other DAC pharmacies necessary, are compliant dispensing pharmacies under the 340B Program.

Coordinate with one or more vendors to purchase STD 340B Program medications that result in the greatest overall cost savings available to the State, whether such savings are achieved by 340B Program pricing, non-340B Program volume discounts, or a combination of both.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
