§ 143B-437.09(a) Urban Progress Zone Defined. - An urban progress zone is an area that meets all of the following conditions:

- (1)

It is comprised of part or all of one or more contiguous census tracts, census block groups, or both, in the most recent federal decennial census.
- (2)

All of the area is located in whole within the primary corporate limits of a municipality with a population in excess of 10,000 according to the most recent annual population estimates certified by the State Budget Officer.
- (3)

Every census tract and census block group that comprises the area meets at least one of the following conditions:

a.

It has a population that meets the poverty level threshold. The population of a census tract or census block group meets the poverty level threshold if more than twenty percent (20%) of its population is below the poverty level according to the most recent federal decennial census.

b.

It is located adjacent to a census tract or census block group whose population meets the poverty level threshold and at least fifty percent (50%) of the part of it that is included in the area is zoned as nonresidential. No more than thirty-five percent (35%) of the area of a zone may consist of census tracts or census block groups that satisfy this condition only.

c.

It has a population that has a poverty level that is greater than the poverty level of the population of the State and a per capita income that is at least ten percent (10%) below the per capita income of the State according to the most recent federal decennial census, and it has experienced a major plant closing and layoff within the past 10 years.

A census tract or census block group has experienced a major plant closing and layoff if one of its industries has closed one or more facilities in the census tract or census block group resulting in a layoff of at least 3,000 employees working in the census tract or census block group and if the number of employees laid off is greater than seven percent (7%) of the population of the municipality according to the most recent federal decennial census.

§ 143B-437.09(b)

Limitations. - No census tract or block group may be located in more than one urban progress zone. The total area of all zones within a municipality may not exceed fifteen percent (15%) of the total area of the municipality unless the smallest possible area in the municipality satisfying all of the conditions of subsection (a) of this section exceeds fifteen percent (15%) of the total area of the municipality. In the case of a municipality where the smallest possible area in the municipality satisfying all of the conditions of subsection (a) of this section exceeds fifteen percent (15%) of the total area of the municipality, the smallest possible area in the municipality satisfying all of the conditions of subsection (a) of this section may be designated as an urban poverty zone.

§ 143B-437.09(c)

The application shall include all of the information listed in this subsection. A determination under this section is effective until December 31 of the year following the year in which the determination is made. The Department of Commerce shall publish annually a list of all urban progress zones with a description of their boundaries.

- (2) The parcel was in existence and under common ownership prior to the most recent federal decennial census.
