b.Economy and efficiency: to determine whether the State agency is managing or utilizing its resources (such as personnel and property) in an economical and efficient manner and the causes of any inefficiencies or uneconomical practices, including inadequacies in laws, management information systems, administrative policies and procedures, or organizational structures.

c.Program results: to determine whether the desired results or benefits are being achieved, whether the objectives established by the General Assembly or another authorizing body are being met, and whether the State agency has considered alternatives that might yield desired results at lower costs.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
