The policy of the General Assembly with respect to satellite jail/work release units is:

To encourage counties to accept responsibility for incarcerated misdemeanants thereby relieving the State prison system of its misdemeanor population;

To assist counties in providing suitable facilities for certain misdemeanants who receive active sentences;

To allow more misdemeanants who are employed at the time of sentencing to retain their jobs by eliminating the time involved in processing persons through the State system;

To enable misdemeanants to pay for their upkeep while serving time, to pay restitution, to continue to support their dependents, and to remain near the communities and families to which they will return after serving their time;

To provide more appropriate, cost effective housing for certain minimum custody misdemeanants and to utilize vacant buildings where possible and suitable for renovation;

To provide a rehabilitative atmosphere for non-violent misdemeanants who otherwise would face a substantial threat of imprisonment; and

To encourage the use of alternative to incarceration programs.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
