§ 15A-1369.3(a) The Commission shall consider an inmate for medical release upon referral by the Division. The Division may base its referral upon either a request or petition for release filed by the inmate, the inmate's attorney, or the inmate's next of kin or upon a recommendation from within the Division.

§ 15A-1369.3(b) The referral shall include an assessment of the inmate's medical and psychosocial condition and the risk the inmate poses to society, as follows:

- (1) The Division medical director, or a designee of the director who is a licensed physician, shall review the case of each inmate who meets the eligibility requirements for medical release set forth in G.S. 15A-1369.2. Any physician who examines an inmate being considered for medical release shall prepare a written diagnosis that includes both of the following:
 - a.A description of any and all terminal conditions, physical incapacities, and chronic conditions.
 - b.A prognosis concerning the likelihood of recovery from any and all terminal conditions, physical incapacities, and chronic conditions.
- (2) The Division shall make an assessment of the risk for violence and recidivism that the inmate poses to society. In order to make this assessment, the Division may consider such factors as the inmate's medical condition, the severity of the offense for which the inmate is incarcerated, the inmate's prison record, and the release plan.

§ 15A-1369.3(c)

If the Division determines that the inmate meets the criteria for release, the Division shall forward its referral and medical release plan for the inmate to the Commission. The Division shall complete the risk assessment and forward its referral and medical release plan within 45 days of receiving a request, petition, or recommendation for release.

§ 15A-1369.3(d) The Commission shall make a determination of whether to grant medical release within 15 days of receiving a referral from the Division for release of a terminally ill inmate and within 20 days of receiving a referral from the Division for release of a permanently and totally disabled inmate or a geriatric inmate. In making the determination, the Commission shall make an independent assessment of the risk for violence and recidivism that the inmate poses to society. The Commission also shall provide the victim or victims of the inmate or the victims' family or families with an opportunity to be heard.

§ 15A-1369.3(e) A denial of medical release by the Commission shall not affect an inmate's eligibility for any other form of parole or release under applicable law.

§ 15A-1369.3(f) If the Division determines that an inmate should not be considered for release under this Article or the Commission denies medical release under this Article, the inmate may not reapply or be reconsidered unless there is a demonstrated change in the inmate's medical condition. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
