§ 160D-922(a) Any local government may enact and enforce erosion and sedimentation control regulations as authorized by Article 4 of Chapter 113A of the General Statutes and shall comply with all applicable provisions of that Article and, to the extent not inconsistent with that Article, with this Chapter. Fees charged by a local government under its erosion and sedimentation control program shall not exceed that authorized in G.S. 113A-60(a).

§ 160D-922(b) Once a local government administering an erosion and sedimentation control program approves an erosion and sedimentation control plan for land-disturbing activity at a site, the local government shall allow the plan holder to begin land-disturbing activity in accordance with G.S. 160D-1110.1(h) and the approved plan, notwithstanding that other development approvals that may be required from the local government for the project have not yet been obtained. In accordance with G.S. 160D-108(e), where multiple local development permits are required to complete a development project, approval of an erosion and sedimentation control plan is not an initial development permit for purposes of the vesting protections of that subsection. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
