The Commission shall recommend a comprehensive community corrections strategy and organizational structure for the State based upon the following:

A review of existing community-based corrections programs in the State;

The identification of additional types of community corrections programs, including residential programs, necessary to create an effective continuum of corrections sanctions in North Carolina;

The identification of categories of offenders who would be eligible for sentencing to community corrections programs and the impact that the use of a comprehensive range of community-based sanctions would have on sentencing practices;

A form of State oversight and coordination to ensure that community corrections programs are coordinated in order to achieve maximum impact; and

A mechanism for State funding and local community participation in the operation and implementation of community corrections programs;

An analysis of the rate of recidivism of clients under the supervision of the existing community-based corrections programs in the State, recidivism here measured as the clients committing new crimes at any time subsequent to their entry into a community-based corrections program. This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
