**§ 166A-29(a)** Every person, firm, corporation or municipality who is licensed to construct or who is operating a fixed nuclear facility for the production of electricity shall pay to the Department of Public Safety an annual fee of at least thirty thousand dollars (\$30,000) for each fixed nuclear facility which is located within this State or has a Plume Exposure Pathway Emergency Planning Zone of which any part is located within this State. This fee is to be applied to the costs of planning and implementing emergency response activities as are required by the Federal Emergency Management Agency for the operation of nuclear facilities. Said fee is to be paid on a schedule set by the Department of Public Safety. This minimum fee may be increased from time to time as the costs of such planning and implementation increase. Such increases shall be by agreement between the State and the licensees or operators of the fixed nuclear facilities.

**§ 166A-29(b)** Every person, firm, corporation or municipality who is licensed to construct or who is operating a fixed nuclear facility for the production of electricity shall pay to the Department of Public Safety, for the use of the Radiation Protection Section of the Division of Health Service Regulation of the Department of Health and Human Services, an annual fee of at least thirty-six thousand dollars (\$36,000), not to exceed the cost of the service provided, for each fixed nuclear facility that is located within this State or that has a Plume Exposure Pathway Emergency Planning Zone any part of which is located within this State. This fee shall be applied only to the costs of planning and implementing emergency response activities as required by the Federal Emergency Management Agency for the operation of nuclear facilities. This fee is to be paid on a schedule set by the Department of Public Safety.

§ 166A-29(c)

The fees imposed by this section do not revert at the end of a fiscal year. The amount of fees carried forward from one fiscal year to the next shall be taken into consideration in determining the fee to be assessed each fixed nuclear facility under subsection (a) in that fiscal year.

## FULL SECTION

N.C. Gen. Stat. § 166A-29 (2020).

## PINPOINT

N.C. Gen. Stat. § 166A-29(a) (2020).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

## COLOPHON

## Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
