- § 166A-42(a)

Each party state recognizes that many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this Compact. Each party state further recognizes that there will be emergencies that require immediate access and present procedures to apply outside resources to respond to emergencies effectively and promptly. This is because few, if any, individual states have all the resources that they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.
- § 166A-42(b)

The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all articles of this Compact shall be understood.
- § 166A-42(c)

On behalf of the governor of each party state, the legally designated state official who is assigned responsibility for emergency management shall be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this Compact. (1997-152, s. 1.)

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
