Within 30 days after receipt of notice of an application as provided by G.S. 62-102, a municipality or county shall file with the Commission and serve on the applicant the provisions of an ordinance that may affect the construction, operation, or maintenance of the proposed transmission line in the manner provided by the rules of the Commission. If the municipality or county does not serve notice as provided above of any such ordinance provisions, the provisions of such ordinance may not be enforced by the municipality or county. If the applicant proposes not to comply with any part of the ordinance, the applicant may move the Commission for an order preempting that part of the ordinance. Service of the motion on the municipality or county by the applicant shall make the municipality or county a party to the proceeding. If the Commission finds that the greater public interest requires it, the Commission may include in a certificate issued under this Article an order preempting any part of such county or municipal ordinance with respect to the construction, operation or maintenance of the proposed transmission line.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
