The report shall state the public utility's total North Carolina jurisdictional revenues for the preceding quarter and shall be accompanied by any supporting documentation that the Department of Environmental Quality may by rule require. Receipts shall be reported on an accrual basis.

Subject to appropriation by the General Assembly, one hundred percent (100%) shall be used by the Department of Environmental Quality. All funds credited to the Fund shall be used only to pay the expenses of the Department of Environmental Quality in providing oversight of coal combustion residuals.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
