- § 62-351(a)** Declaration of Policy. - It is the policy of the State for government-owned facilities that have backup or emergency generators that meet the criteria of utility demand-side management programs or rates to enroll in such programs or rates to the extent those programs or rates are available without diminishing the purpose or use of the facility having the backup or emergency generator.
- § 62-351(b)** Department of Public Safety Pilot Program. - By no later than January 1, 2018, the Department of Public Safety shall designate a backup or emergency generator to enroll in the demand-side management program or rate available that would allow electricity load to be shifted to its generator in response to utility-administered programs.
- § 62-351(c)** Report. - The Department of Public Safety shall report to the Joint Legislative Commission on Energy Policy by January 31 of each year on the status of the designated backup or emergency generator and whether it is enrolled in the utility demand-side response program or rate.
- § 62-351(d)** Sunset. - The pilot program and report required by subsections (b) and (c) of this section shall expire on January 1, 2020. (2017-192, s. 9.)

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
