§ 63-32(a)

Permits. - Where advisable to facilitate the enforcement of zoning regulations adopted pursuant to this Article, a system may be established by any political subdivision for the granting of permits to establish or construct new structures and other uses and to replace existing structures and other uses or make substantial changes therein or substantial repairs thereof. In any event, before any nonconforming structure or tree may be replaced, substantially altered or repaired, rebuilt, allowed to grow higher, or replanted, a permit must be secured from the administrative agency authorized to administer and enforce the regulations, authorizing such replacement, change or repair. No such permit shall be granted that would allow the structure or tree in question to be made higher or become a greater hazard to air navigation than it was when the applicable regulation was adopted; and whenever the administrative agency determines that a nonconforming structure or tree has been abandoned or more than eighty percent (80%) torn down, destroyed, deteriorated, or decayed: (i) no permit shall be granted that would allow said structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations; and (ii) whether application is made for a permit under this paragraph or not, the said agency may by appropriate action compel the owner of the nonconforming structure or tree, at his own expense, to lower, remove, reconstruct, or equip such object as may be necessary to conform to the regulations or, if the owner of the nonconforming structure or tree shall neglect or refuse to comply with such order for 10 days after notice thereof, the said agency may proceed to have the object so lowered, removed, reconstructed, or equipped. Except as indicated, all applications for permits for replacement, change or repair of nonconforming uses shall be granted.

§ 63-32(b) Variances. - Any person desiring to erect any structures, or increase the height of any structure, or permit the growth of any tree, or otherwise use his property, in violation of airport zoning regulations adopted under this Article, may apply to the board of appeals, as provided in G.S. 63-33, subsection (c), for a variance from the zoning regulations in question. Such variances shall be considered pursuant to G.S. 160D-705 and be in accordance with the spirit of the regulations and this Article.

§ 63-32(c) Obstruction Marking and Lighting. - In granting any permit or variance under this section, the administrative agency or board of appeals may, if it deems such action advisable to effectuate the purposes of this Article and reasonable in the circumstances, so condition such permit or variance as to require the owner of the structure or tree in question to permit the political subdivision, at its own expense, to install, operate, and maintain suitable obstruction markers and obstruction lights thereon.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
