§ 70-47(a) The General Assembly finds that archaeological resources on private lands constitute the majority of the irreplaceable historic and prehistoric resources of the State. These resources are increasingly endangered and existing State laws do not provide private landowners with the means adequately to preserve these resources. There is currently no provision for assisting and giving recognition to a private landowner who wishes to preserve the archaeological resources located on the owner's property.

§ 70-47(b) The purpose of this Article is to preserve and protect for the present and future benefit of the people of North Carolina through a program of voluntary site enrollment the prehistoric and historic archaeological resources that are on private lands.

PINPOINT

N.C. Gen. Stat. § 70-47(a) (1991).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

COLOPHON

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
