It shall be unlawful for any person to knowingly manufacture, sell, give, deliver, possess, or use an alcohol vaporizing device. As used in this section, "alcohol vaporizing device" or "AVD" means a device, machine, apparatus, or appliance that is designed or marketed for the purpose of mixing ethyl alcohol with pure or diluted oxygen, or another gas, to produce an alcoholic vapor that an individual can inhale or snort. An AVD does not include an inhaler, nebulizer, atomizer, or other device that is designed and intended by the manufacturer to dispense either a substance prescribed by a licensed medical provider authorized by law to prescribe the inhalant or chemical substance possessed, or an over-the-counter medication approved by monograph or new drug application under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. § 301, et seq.), provided the instrument is not used for the purpose of inducing a condition of intoxication through inhalation. Violation of this section is not a lesser included offense of G.S. 90-113.22. (2007-134, s. 2.)

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
