- § 90-21.101(a)

The General Assembly makes the following findings:

(1)

Access to high-quality health care services is a concern of all persons.

(2)

Access to high-quality health care services may be limited for some residents of this State, particularly those who reside in remote, rural areas or in the inner city.

(3)

Physicians and other health care providers have traditionally worked to ensure broad access to health care services.

(4)

Many health care providers from North Carolina and elsewhere are willing to volunteer their services to address the health care needs of North Carolinians who may otherwise not be able to obtain high-quality health care services.
- § 90-21.101(b)

The General Assembly further finds that it is the public policy of this State to encourage and facilitate the voluntary provision of health care services. (2012-155, s. 1.)

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
