It is the purpose of this Article to promote the public health, safety, and welfare of all citizens by broadly protecting the health care facilities and health care providers in this State from liability that may result from treatment of individuals during the COVID-19 public health emergency under conditions resulting from circumstances associated with the COVID-19 public health emergency. A public health emergency that occurs on a statewide basis requires an enormous response from State, federal, and local governments working in concert with private and public health care providers in the community. The rendering of treatment to patients during such a public health emergency is a matter of vital State concern affecting the public health, safety, and welfare of all citizens. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
