The General Assembly finds that the practice of perfusion is an area of health care that is continually evolving to include more sophisticated and demanding patient care activities. The General Assembly further finds that the practice of perfusion by unauthorized, unqualified, unprofessional, and incompetent persons is a threat to public health, safety, and welfare, and therefore it is necessary to establish minimum standards of education, training, and competency for persons engaged in the practice of perfusion. N.C. Gen. Stat. § 90-681 (2026).

Pinpoint keys are set in the left margin of the text rather than line numbers: subsection designators are stable across editions and paper sizes, line numbers are not.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
