General Statutes of North Carolina, as published by the General Assembly	1991 (Reg. Sess., 1992), c. 894, s. 1 — second act in the lineage	21 September 2026, 01:25 UTC	4279e715bf4caac8ce4aec00 - 11db3f058d0d6c04dc7f3f1c - 9a51ac03f9a03882

§ 95-143(a) Each employer shall make available to the Commissioner, or his agents, in such manner as the Commissioner shall require, copies of the same records and reports regarding his activities relating to this Article as are required to be made, kept, or preserved by section 8(c) of the Federal Occupational Safety and Health Act of 1970 (P.L. 91-596) and regulations made pursuant thereto.

§ 95-143(b) Each employer shall make, keep and preserve and make available to the Commissioner such records regarding his activities relating to this Article as the Commissioner may prescribe by regulation as necessary and appropriate for the enforcement of this Article or for developing information regarding the causes and prevention of occupational accidents and illnesses. In order to carry out the provisions of this section such regulations may include provisions requiring employers to conduct periodic inspections. The Commissioner shall also issue regulations requiring that employers, through posting of notices or other appropriate means, keep the employees informed of their protections and obligations under this Article, including the provisions of applicable standards. The Commissioner shall prescribe regulations requiring employers to maintain accurate records of, and to make reports at least annually on, work-related deaths, injuries and illnesses other than minor injuries requiring only first-aid treatment and which do not involve medical treatment, loss of consciousness, restriction of work or motion, or transfer to another job.

§ 95-143(c) The Commissioner shall issue regulations requiring employers to maintain accurate records of employee exposure to potentially toxic materials of [or] harmful physical agents which are required to be monitored or measured under this Article. Such

regulations shall provide employees or their representatives with an opportunity to observe such monitoring or measuring, and to have access to the records thereof. Such regulations shall also make appropriate provisions for each employee or former employee to have access to such records as will indicate his own exposure to toxic materials or harmful physical agents. Each employer shall promptly notify any employee who has been or is being exposed to toxic materials or harmful physical agents in concentrations or at levels which exceed those prescribed by an applicable safety and health standard promulgated under this Article and shall inform any employee who is being thus exposed of the corrective action being taken.

§ 95-143(d)

Any information obtained by the Commissioner or his duly authorized agents under this Article shall be obtained with a minimum burden upon employers, especially those operating small businesses. Unnecessary duplication of efforts in obtaining information shall be reduced to the maximum extent feasible.

Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
