The Department of Labor shall create and conduct a safety program for the purpose of providing instruction on how to properly care, maintain, operate, and exhibit historical boilers. The program shall also include instruction on how to train an apprentice to properly care, maintain, operate, and exhibit historical boilers. For purposes of this section, the term "historical boiler" means a steam boiler of riveted construction that is preserved, restored, or maintained for hobby or demonstration. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
