The Division must determine the ratio of the credit balance in each employer's account to the total of the credit balances in all employers' accounts as of the computation date. The Division must allocate an amount equal to the interest credited to this State's account in the Unemployment Trust Fund for the four completed calendar quarters preceding the computation date on a pro rata basis to these accounts. The amount must be prorated to an employer's account in the same ratio that the credit balance in the employer's account bears to the total of the credit balances in all the accounts. Voluntary contributions made by an employer after July 31 of a year are not considered a part of the employer's account balance used in determining the allocation under this section until the computation date in the following year. Provenance

This document reproduces the text of one section of the General Statutes of North Carolina from a source file whose SHA-256 digest is printed on every page. The digest fixes the bytes this export was made from; if the State's file changes, the digest will not match.

The text of the section is unaltered. Subsection designators have been moved from the run of text into the margin. The amendment history and the table of authorities are derived from the section by mechanical extraction — they add no characterization of the law.

This is not the official text. The official text is published by the General Assembly of North Carolina.
